HOW TO PETITION TRANSFER COURSEWORK FOR MAE COURSE EQUIVALENCY

If you took an engineering course at your transfer institution, then you will need to petition for equivalency of this course with a particular MAE course. For the MAE Department, a course substitution petition must be submitted through the MAE Undergraduate Online Petition Portal:

- 1. Select which MAE course you are requesting to substitute.
- 2. Enter the college, course, term, and grade for the transfer course.
- 3. For the "Petition Reasons" field, you may enter "Courses are similar in content."
- 4. You then must attach your coursework for the transfer course (e.g., detailed syllabus, quizzes, exams, etc.).

Your petition will be reviewed by an MAE faculty member, who might require more information from you in order to make a decision. It's not guaranteed that they will be able to judge whether or not a transfer course is equivalent to an MAE course if you aren't able to provide sufficient coursework.

We cannot update your degree audit to reflect an approved substitution until your official transcripts are processed by UCSD. If your transfer grades are still being processed and you need to enroll in an MAE course that requires the transfer course as a prerequisite, then you can email your unofficial transcript to MAE Advising (mae-ugrad@eng.ucsd.edu) to show that you passed the prerequisite and we will clear you to enroll in the MAE course.

This academic plan assumes that you have completed all of the following courses at your previous college:

Calculus I for Science and Engineering (MATH 20A), Calculus II for Science and Engineering (MATH 20B), Calculus and Analytic Geometry (MATH 20C), Differential Equations (MATH 20D), Linear Algebra [MATH 18 (formerly 20F)], Complete calculus-based physics series (PHYS 2A, B, C, & CL), and general chemistry (CHEM 6A for Aero; CHEM 6A & B for Mech).

If you have not completed all the courses listed above, this plan is not suitable for you.
